## MARRYING FOR MONEY

Marrying for Money by Mrs. Eva Leonard—Late Fashion Notes—Three-quarter Sleeves Again in Fashion—Plaids Popular—Contrasting Linings—One-sided Effects on Evening Frocks—Recipe for Tea Rolls.

"Daddy," exclaimed Marian, flushed and excited, "come up to the den a minute, can't you? I want to tell you something."

Jacob Townsend followed his daughter to the den. She had fixed up over the three Townsend when they wanted to be by themselves. Their home, Marian called it. When her father had dropped into his easy chair, Marian perched on the arm and began breathlessly to tell what had brought her to the store.

"When Ortrude and her cousin returned from Kansas City today they had the main line loaded with boxes and bundles."

"That is too common an occurrence to get so excited over, my dear," said Jacob wearily.

"But, father, she has spent all this money fixing up that cousin. You surely have enough to do to dress Ortrude without clothing her cousin," continued the girl.

"Oh, surely you are mistaken. She would not think of doing such a thing, I am sure," Jacob smiled reassuringly into Marian's face.

"Indeed she would," insisted the girl. "I heard them talking the other evening. Ortrude was planning for a big party for Adelaide, and the girl said she had nothing suitable to wear. Ortrude told her that she would see to that. 'Marian has very simple clothes,' she told her, 'but I want you to make an impression. They were sitting in the garden under my window and I could not help hearing,' added the girl."

"Probably Ortrude has something that she intends to alter for the girl. She may very well have. She has bought enough evening clothes for a city society lady and there is absolutely nothing to wear them in this town," Jacob patted the girl's hand to quiet her.

"No," Marian shook her head confidently. "I heard Ortrude say something about Adelaide's dress and the girl was so pleased and excited. I do not think she has had much in the way of clothes. She is not to blame. I suppose she thinks Ortrude married money bags," Jacob sat looking at the opposite wall very intently, but he did not reply.

"I suppose there is nothing you could do about it if she chose to buy the girl an entire wardrobe," said the girl bitterly.

"There is something I should try to do," was the decisive answer. "What, Daddy?" queried the girl. "My plans are not entirely made," said Jacob evasively, "but I shall look into the matter at once. I promise you that."

They sat in silence for some minutes, then he rose, saying: "I must go back to work," Marian followed him down the stairs.

As the girl walked home through the hot afternoon sun her heart was full of bitterness. "I shall have to appear at the party given for Adelaide in my simple white dress. I have not had a thing new this summer. I planned to have all my new things in the fall to go away to school with, and that is what is given up. Now I will have to show how much better the cousin dresses than I do, and all my father's money, too." She thought as she walked along. An automobile whizzed past her and she glanced up to see Adelaide wave to her and smile radiantly. She was having the time of her life.

"The rich can ride in automobiles," was Marian's bitter reflection. (To be continued.)

### SPRING FASHIONS.

**Princess Models.** In some of the new lingerie models, the princess effect is adhered to. It is gained in different ways. Sometimes the fullness is held in at the waist by means of many small tucks. Sometimes the whole frock is cut in long-shaped gores.

**Three-Quarter Sleeves.** Three-quarter length sleeves are again in fashion. They are pretty, those sleeves that come below the elbow and end just about where the lower arm is plump. The seven-eighths sleeve, not half as pretty, is seldom seen just now.

**Linings.** Linings in contrasting colors are used in many new frocks. Sometimes the whole skirt is lined, and sometimes the wide, pointed overskirt is lined, and in this case of course the lining constantly shows, as the full pointed overskirt always falls in such folds that the under side is visible.

**Plaids.** Plaid silk is sometimes used for this lining, with striking effect. Plaid is

also combined in other way with plain materials to give very good results. One model shows a sort of jumper waist of plain blue broadcloth, with an under bodice of plaid silk in blue, green and gold, with a thread of rose. The skirt is made of the silk with a wide, shaped hem of the broadcloth.

**One-Sided Effects.** Many one-sided effects are seen in evening frocks. Sometimes one shoulder strap is of flowers or ribbon or jewels, the other of some other variety. The surplus closing still gives a one-sided effect to many other frocks. There is also sometimes a diagonal line in the skirt closing that adds to the one-sided effect.

**WOMEN! TRY IT! SAVE 5 DOLLARS**

Says gasoline and solvite in washbowl dry cleans everything.

Ever dry clean at home? Well, it's so easy, inexpensive and the results so pleasing you'll be surprised. Any woman can clean and renew the brightest of ribbons, silks, satins, laces, yokes, silk shirtwaists, kid gloves and shoes, fur neckties, children's coats, suits, caps, swiss, lawn, organdy and chiffon dresses, fancy vests, veils, woolen garments, net-work, draperies, rugs, in fact, any and everything that would be ruined with soap and water.

Get two ounces of solvite at any drug store and put it in two gallons of gasoline where it quickly dissolves. Then put in the goods to be cleaned, rub a little and out they come looking as bright and fresh as new. You will find nothing fades, shrinks or wrinkles, requiring no pressing. Any woman can do five dollars' worth of home dry cleaning in a few moments and you can't make a mistake. Your grocer or any drug store will sell you two ounces of solvite which is simply a gasoline soap. Then a wash bowl or large dish pan completes your dry-cleaning outfit.

"An gasoline is very inflammable, be sure to do your dry cleaning out of doors or in a room away from fire or flame, with the windows left open."—Advertisement.

### BIG SNOW DEPOSIT AROUND MT. LOGAN.

Logan, March 7.—The forest service people report a visit to their snow measuring stations in Logan canyon. They usually visit these stations once a month. Last month they recorded a depth of seven feet ten inches at the upper station, which is about fifty feet below the summit of Mount Logan, but this time they found eleven feet four inches at that station. This is the heaviest fall in many years. At the center station there was ninety-seven inches and at the lower one sixty-two inches. A party of seven made the trip on snowshoes.

### HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.—Advertisement.

### GERMANS WILL NOT YIELD ANY MORE

New York, March 7.—The general feeling among many noted men in Germany is that the government there has exhausted all efforts to retain America's friendship and can do nothing further, according to Roy S. Macelwee, secretary to the American consular general in Berlin, who arrived here today on the Norwegian-American liner Kristianstad. Mr. Macelwee has returned to visit relatives and will go to Washington on official business.

The military and naval strength of the United States is not seriously regarded in Germany, said Mr. Macelwee. "Germans feel," he asserted, "that there is a manifest moral sympathy in the United States with the entire allies and this is going to prolong the war, in that Germans believe the allies feel that they have the United States to call upon in case of necessity. Germans think that but for this American sympathy the war would now be possible, inasmuch as Germany's enemies would be willing to get together around the table if they

did not feel they had the United States to fall back upon. At the same time Germany is confident of victory. "The general feeling is that Germany has exhausted all its resources to retain the friendship of the United States, and can go no further," concluded Mr. Macelwee.

**INJURED JAPANESE WILL DIE.** Logan, March 7.—Reports from the Utah-Idaho hospital indicate that K. Furuyama, the Japanese who was struck by an interurban car in a snow cut near Mendon on Friday evening, will die. James O'Brien, the section foreman injured at the same time and place, is recovering from his injuries quite rapidly. The Japanese was hurt much worse than the white man.

**Look and Feel Clean, Sweet and Fresh Every Day**

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Advertisement.

### MOSES BURDICK, JR., DIES.

### CHANGES AT THE CITY BUILDING

Mayor A. R. Heywood states that remodeling of the city building will begin within the next ten days or two weeks. The expectation being that the second floor in the south wing will be ready for use by the recorder, auditor and treasurer within forty-five days after building begins. While the remodeling is in progress, the commissioners will occupy the commissioners' large chamber on the upper floor of the building and the recorder, treasurer and auditor will be housed in the rooms now occupied by the mayor and Commissioner Christensen on the first floor of the main building. In the meantime the north entrance to the building will be closed.

### OGDEN WOMAN WAS A BOOSTER FOR THE STATE OF UTAH

Miss Mamie Littlefield, daughter of the late Major and Mrs. E. A. Littlefield, has returned from—as she terms it—a year's mission to California, as a representative of Utah at the Panama-Pacific exposition, in San Diego. Miss Littlefield was custodian and hostess of the Utah building at the Southern California fair and, through her lectures, gained the distinction of being one of the state's brightest women. Though she passed a period of more than four seasons, according to the Utah climatic register, in the balmy atmosphere of the most inviting part of California and amid the most beautiful surroundings, the Ogdens woman was glad to return to her home city.

A visit with Miss Littlefield means conversion from a passive or semi-passive admirer of Utah to an enthusiast, for she fairly radiates—as any one who heard her lecture at San Diego will agree—the broad minded and healthy spirit of Utah.

Through her numerous daily lectures, at the Utah building in San Diego, an estimated 50,000 people, had their ideas of Utah corrected and when skeptical of the spoken word, were convinced by statistical proof. "I knew it and believed it," said Miss Littlefield yesterday. "That is why the people who heard the lectures were impressed by them. I felt that I was on a mission for Utah and loved the work. People were astonished when told that my state had the smallest percentage of illiteracy of any state in the Union, the most abundant resources, the most healthful climate and the most broad-minded people, but they could not gainsay the evidence at hand."

"The Ogdens Publicity bureau is doing splendid work in advertising the state, especially the northern section, and, 'be sure to mention this,' the visit of the Ogdens tabernacle choir to California last summer was one of the finest things that ever happened for the state. It was heard by people from all over the world and the people of San Diego are still talking about its beautiful singing."

From the trend of a further conversation, it was evident that Miss Littlefield, in her publicity work at the exposition, had endeavored to disabuse the idea of many people that "Utah is in Sal Lake City" and she let them know instead that Ogdens loomed large on the map of the state and that there were many other flourishing cities and towns worthy of consideration by the tourist and home-seeker. "I love all of Utah," she said, "but Ogdens is my home by birth and later choice, and when my time in San Diego was up, I came here by the quickest route."

The Ogdens woman had a word of sincere praise for the Ogdens and Utah newspapers, declaring them to be the equal of any in the large files at the Utah building. Of San Diego, she also had much praise, saying that she had enjoyed courteous and hospitable treatment there and had made many friends. The recent storms in that part of California, she said further, was now being rapidly repaired and when she departed from the southern city, the climatic condition was again delightful and nature was putting on its brightest garb. As to the continuing of the San Diego exposition another year, Miss Littlefield declared it a good move and, in her opinion, the "boosters" of Utah could do no better than to again make it the center of their publicity efforts.

### OGDEN FURNITURE & CARPET COMPANY ELECTION

At the annual meeting of the Ogdens Furniture & Carpet company, Adam Patterson was re-elected president; John Watson, vice president; Roy Eccles, treasurer, and E. F. Hundley, secretary and manager. The officers, with Peter Anderson, E. O. Watts and A. S. Patterson form the board of directors.

The company, having leased the Patterson block, which has been occupied as a part of its furniture store, to the new grocery and meat company to be known as the Wilcox, Schade & Harris company, two additional stories will be added to the Good Luck block to accommodate the business. It is planned to begin the enlargement of the block at an early time at an expense of about \$30,000. The two extra stories will furnish double the space now used by the furniture company.

### WILL BEGIN WORK ON SUGAR FACTORY.

Brigham City, March 7.—Officials of the Dyer Construction company of Cincinnati are in this city today making preparations to begin construction work on the sugar factory to be erected near this city by the Utah-Idaho Sugar company. Accompanying the Dyer officials were Richard W. Young, Jr., George Austin and J. W. Lewis of the sugar company, who went over the ground together with the construction company's officials. The work of draining the sugar factory site was begun the day after the site had been officially accepted.

### SHERIFF COMES FOR OFFENDER.

Tooele, March 7.—Sheriff W. O. Pratt of Albion, Cassia county, Idaho, reached here today to get William Cone, who has confessed to participation in the robbery of a store at Albion. Cone was arrested by Sheriff Pratt of Creek, Utah county, at the ranch of Cone's brother.

PRODIGAL RETURNED. One morning the "Black Maria" arrived at the police court to take to jail the prisoners who had been arrested the previous night. As they filed into the van the policemen were much amused to hear an old woman,

Have you made a **CRISCO** CAKE?

Try this recipe; or make your own favorite cake, using Crisco in place of butter. Use one-fifth less Crisco than butter and add salt.

If you will merely use Crisco properly there will be no need to mix any butter with it. Your Crisco cake will be as nice as the more expensive cake you formerly made with butter. Crisco cake stays fresh and moist longer.

"Now, then, come out of that; you've got my corner!"

Needless to say, the old lady obtained her accustomed seat. Then, as the door was closed to and the policeman stepped up behind, she put her face to the bars and said to him in delightfully dulcet tones: "Home, James!"—Tit-Bits.

### CHILDREN CHEAP.

An elderly lady from the country one day decided to adopt two children from the county orphan asylum.

She walked several miles before reaching the car line. It was the first time she had been on a car. She stared wide-eyed at everything she saw, then her gaze stopped on a sign, she read thus:

"The Ohio Traction Company—Children under twelve years of age 3 cents or two for 5 cents."

"Well," she said, "that is the best bargain ever." Calling the conductor, she said: "Young man, I'll take two of those children for 5 cents right now, a boy and a girl, please."—National Monthly.

### A REAL MIRACLE.

"I saw a magician last night turn water into wine."

"That's nothing. I saw an ordinary chauffeur turn an automobile into a lamp post."—Sunshine.

### NOT WHAT HE CAME FOR.

While a small boy was fishing one Sunday morning he accidentally lost his foothold and tumbled into the creek. As an old man on the bank was helping him out he said: "How did you come to fall in the river, my little man?"

"I didn't come to fall in the river. I came to fish," replied the boy.

**USUALLY EFFICIENT.** "Now," said the Professor of Chem-

"Marriage," declared the bright student.—Dallas News.

### LIMIT APPROACHING.

Willis—Then you think the war is bound to end soon?

Gillis—Certainly. The way all the nations are jumping in there will soon come a time when there won't be any more neutral nations left for the Germans and English to fight in.—Life.

### HIS THRILLING EXPERIENCE.

The following is an extract from a youthful autobiography.

"I am eleven years old. When I was three I had the scarlet fever. After that I had mumps, measles and whooping cough, soon a Great Dane jumped off hit my face and then I fell off of a ladder and broke my arm."

"Mother says boys have much better times now than when she was childish."

### Save ten cents a pound on Coffee

There was a day when roasted rye and other cheap substitutes could be ground and sold for coffee.

There was a day when the coarsest flavored coffee could be glazed and made to appear fairly well, and sell for the best.

Not so today. You know better. You are able to discriminate—to judge by the flavor rather than by the label.

You are demanding delicate aroma, refined flavor, full rich coffee taste.

That's why we find a growing market for Folger's Golden Gate Coffee, the highest priced in America, because the quality is in the cup.
